

Supplier Guidelines

Logipack Online Meetings

About the event

Logipack Online Meetings is the leading B2B Online Meetings Event organized with the purpose of development and improvement of business relations, dedicated to **Buyers, Suppliers and Sub-Suppliers for Logistics, Packaging, Equipment, Machinery and Automation**. During **Logipack Online Meetings** we facilitate the presentation of products and new technological innovation, the access to information, the cooperation and the development of new partnerships.

Why is it useful to attend?

Logipack Online Meetings is the most effective online event in his field for suppliers and buyers and all the major industrial companies are invited. Due to the careful selection of participants, the online tools available for the event, the preparation, the invitation of participants and the planning of meetings before the event, every participant has the possibility to optimize his program in order to maximize the productivity of meetings and his participation in the event.

Who are the participants to the event?

Suppliers, buyers and other technical people from industrial, food and non-food companies. The list of participants is available at <https://logipackonline.industrialin.com/participants>

Definition of the “Supplier” and the “Buyer” in the event acceptance.

The “Supplier” is a company representing person who wants to promote and sell (or to sell & buy) products or services for his company related to the industrial domains.

The “Buyer” is a purchasing professional, technical people or other representing person, who is searching to buy products or services for his company, related to the industrial domains.

When and where will the event take place?

The date of the event is specified on the event website <https://logipackonline.industrialin.com>

The event will take place online, all meetings are planned using the online meetings planner and will be held by video conference.
